38005 Little Moose Lake Road
Deer River MN 56636

Status: Pending

Description:

Build your dream getaway on Little Moose Lake with this rare, infrastructure-ready lake lot overlooking a beautiful wooded bluff. With more than just frontage, this property will come prepped with a compliant septic system, drilled well, water lines, waste lines, and an existing foundation already in place. A shed and lakeside boathouse are included, and the dock stays. There is also a prepared pad for a garage or camper, giving you multiple options for immediate use.

An active building permit is already pulled, allowing the current footprint to remain grandfathered under setback requirements—an increasingly hard-to-find advantage on today's lakes. Whether you want to rebuild on the existing foundation or design a new layout, the groundwork is ready for your vision.

Whether you're planning a year-round home, cabin, or a camper setup, this lot offers exceptional value and a big head start on the building process.
