!!!Attention white tailed deer hunters, turkey hunters, grouse hunters, black bear hunters, and waterfowl hunters!!! Look no further as this property is LOADED with potential. The property is situated near high nutritional agricultural land with history of very large deer and large numbers of turkeys. High ground levels off into hardwood and tamarack swamp habitats providing ideal bedding habitat for deer and roosting habitat for turkeys. Multiple habitat types converge on this property providing incredible travel corridors (ahem, hunting opportunities!) for all animals. Edge habitat is even present with a large transmission powerline right-of-way that runs the southern edge of the property. High ground areas provide plenty of room for a structure or dwelling. Although this would make an outstanding hunting camp, a seasonal or yearround home would also fit very nicely on this property!
