Important notes

1. Located just ¼ mile down Pike Bay Loop is the beginning of endless Chippewa National Forest public lands having many public roads and trails for auto, biking, walking, 4 wheeling, snowmobiling and great hunting.
2. Only 2 mi down Pike Bay Loop and following the entrance road is a beautiful well maintained National Forest Park with a sandy public swimming beach coupled with very nice picnic grounds with bathrooms. Plus, there are numerous campsites that string along the sandy shoreline. All of this on, Pike Bay of the Cass Lake Chain.
3. Additionally, close by are 2 nice public boat ramps and numerous Resort ramps with docking rental space giving convenient access to main Cass Lake. This provides easy boating access to the entire Cass Lake Chain, including Andrusia, Big Wolf and Kitchi Lakes. Beyond that you can follow the Mississippi River to numerous other lakes a bit farther for a never-ending adventure!
4. Within easy driving distance are numerous other lakes, some completely surrounded by public lands with no private dwellings on them. Others with minimal development. Some have public boat ramps and others are accessible only by "carry-in" smaller boats, canoes and kayaks. See the map of public boat ramps included here in the pictures.
5. Groceries, gas, hardware, liquor, golf, summer dining at historic Stony Point Resort and year around dining at the brand new "Bobbers" restaurant at Cass Lake Lodge Resort, gambling and entertainment at the new Cedar Lakes Casino, all just 3 mi north at the town Cass Lake.
6. Just ¼ mi west and adjacent to Hwy 371 you can jump on the extensive Heartland State Trail which also connects to the Paul Bunyan Trail system, both for walking, biking and snowmobiling.
7. Note: The seller has owned this property for less than a year. His interest was in acquiring the adjoining vacant 30+ wooded acres. He has fitted out the disclosures as much as knowledgeable. There is nothing adverse that he knows about. He has cleaned the living and shed quarters. He has started the running water with water heater, brought in a new electrical service, added a 220 service to the interior of the shed, turned on the electrical lights, refrigerator and baseboard heaters. He has installed a new entrance driveway with gates. He has not turned on the forced air furnace, the washer or the dryer. That is about what he knows (see Disclosures). The property is being sold "as is". The seller intends to remove only a very limited amount of personal property that he has added to the shed (to his purchase of the property) (4 wheeler, skid steer with attachments, trailers and minimal other items) The remainder personal property will stay with the property.
8. The seller is a licensed real estate broker in MN. He is presently planning a Minor Subdivision of 9 acreage tracts on the adjacent 30+ acres. The development is named "Among Forest and Lakes". The access road is presently under construction with a planned entrance monument. Very Nice.
