#### Description:

LOT B (5.25±) I'd like to welcome you to explore the Rock Lake Lots. Each lot offers a unique experience ranging in size from just under an acre all the way up to just over 5 acres with lake frontage anywhere from 150 feet to 1700+ feet of frontage. Each lot is wooded and has good solid lake shore. Rock Lake is a 1,048-acre lake located about eight miles northeast of Detroit Lakes in central Becker County. It is locally noted for good panfish angling and fair walleye, largemouth bass, and northern pike fishing. The lake is also known for excellent late-season waterfowl hunting. The deer trails are down to the dirt and a few of these lots have plenty of room to hunt on. With no covenants or restrictions, there is literally a lake lot for every goal and budget. If you are looking for lake life in an excellent location, look no further!
