****Leech Lake:**

Leech Lake is the third largest lake entirely within the boundaries of Minnesota and has approximately 112,000 surface acres. The lake has an irregular shape with a variety of large and small bays. The deepest area of the lake is located in Walker Bay where depths approach 160 feet deep. Approximately 80% of the lake is less than 35 feet deep. Walleye, Northern Pike, and Muskellunge are the primary predator species, while Yellow Perch and Tullibee (Cisco) serve as the principal forage. Leech Lake is well known among anglers as a premier cold water fishing destination and includes excellent fishing for Walleye, Yellow Perch, Northern Pike, Muskellunge, Largemouth Bass, Smallmouth Bass, and Crappie.
