Throughout the property you will find many great transition areas from the hardwoods to some lower bedding areas, to the food plots. Mature oaks, birch and pines are present for timber. Both food plots are located on the edges of bedding areas. A pond that's surrounded by willows and dogwood. This mix of terrain creates an excellent habitat for mature deer to grow and thrive. Neighboring properties also have implemented QDM practices. Not only great deer hunting can be had but also grouse, turkey and bear. Property has a great trail system, and access roads from both the east and west property line.
