**Description:**

Set high on the crest of 5th Street South, this well-maintained, low-maintenance home offers calm, comfort, and connection to the Walker community. Bordering a stand of towering pines, the setting delivers a relaxed Northwoods backdrop with wooded West-facing views.

Inside, more than 2800 square feet are thoughtfully arranged across two levels with abundant natural light. Exceptionally well cared for and reflecting the pride of ownership throughout, the home presents in excellent condition. The main level is designed for comfortable everyday living, while the finished walkout lower level provides flexible space for a family room, guests, or hobbies, along with generous storage. A gas fireplace anchors the lower-level living area, creating a warm and inviting retreat.

One of the home's distinctive features is the cedar sauna located in the insulated garage—an intentional wellness element that elevates daily living. The attached two-stall garage adds convenience, and a separate storage shed offers additional space for tools, outdoor gear, gardening, and seasonal items.

Outdoor living is equally inviting, with two decks, a patio framed by rock landscaping, and a porch that extends the home into its natural surroundings—making it easy to enjoy the peaceful, wooded setting throughout the seasons.

All of this is located just minutes from downtown Walker conveniences, including the elementary and high school, community center, library, city park boat launch, and local shopping and dining. The setting offers a rare balance of elevated privacy with effortless access to everyday amenities. Buyer's agent to verify all measurements.
