4,482 sq ft  
3 bedrooms  
4 baths

6044 Thunder Lake Drive  
Remer MN 56672

Waterfront: Thunder

Status: Active

**Description:**

Set on 219' of shoreline along the striking blue-green waters of Thunder Lake, this property captures the kind of Northwoods living you come here for, with quiet mornings, evenings by the fire, and spaces designed to be enjoyed in every season. The home immediately feels grounded and inviting, with natural wood, stone, and carefully selected finishes creating a sense of warmth that carries throughout. The main living area centers around a floor-to-ceiling stone fireplace, where a custom copper and wood mantel add both character and presence. Just off the living space, a three-season porch offers a place you will find yourself returning to again and again, with windows that open to the sounds of the lake and a comfortable spot for morning coffee or winding down at the end of the day, giving you a front-row seat to the lake without leaving the comfort of the home. The kitchen is designed for gathering, highlighted by a beautiful granite island supported by custom corbels that give it a furniture-quality presence, with seating that invites people to linger. The large dining area offers space for a full table, making it easy to host family and friends with everything comfortably connected. A hammered copper farmhouse sink, bold tile backsplash, and high-end appliances round out the space, creating a kitchen that feels both inviting and distinctly custom. Throughout the main level, the details continue to stand out, from the rich wood flooring to the lighting and finishes that tie each space together. A dedicated office provides a quiet place to work, while even the powder room carries its own moment with a statement stone vanity, hammered sink, and custom mirror. The main-level primary suite provides a comfortable retreat, with warm tones and a relaxed feel that makes it easy to settle in. The en suite bath is thoughtfully finished with dual vanities, granite surfaces, custom cabinetry, and a walk-in tile shower. Underfoot, a blend of tile and stone adds texture while staying true to the home's overall design. Upstairs, the home opens into a loft-style sitting area beneath a wood-lined ceiling, creating a natural place to unwind. Two additional bedrooms and a full bath offer inviting space for guests. The walkout lower level adds a large family room designed for entertaining, with plenty of space for game tables and a comfortable sitting area anchored by a fireplace, creating a second living space that feels just as inviting as the main level. An additional bedroom and bathroom make it well suited for hosting or creating a separate guest area. One of the more unexpected features is the attached garage, finished with custom woodwork and an epoxy floor, creating a space that goes well beyond storage. With a defined sitting area and a clean, polished feel, it functions as a true extension of the home and is equally suited for entertaining, working, or simply gathering when you need a little extra room. In addition to the attached space, a detached garage offers even more room for lake gear, recreational equipment, or workshop use. Outside the setting continues to deliver. A spacious lakeside deck provides the perfect place to take in the view, entertain, or simply spend time outdoors, while a separate lakeside perch offers a more tucked away spot to sit closer to the water and enjoy the quiet. It is the kind of detail that gives you options, whether you prefer sun or shade, gathering or solitude. The property includes lead you to the
