\$400,000

2,640 sq ft
5 bedrooms
3 baths

12663 Norway Spruce Drive
Baxter MN 56425

Status: Coming Soon

Description:

Welcome home to a beautifully maintained property where thoughtful updates and everyday comfort come together in a setting that truly stands out. Situated on a fully landscaped corner lot, this home makes a lasting first impression with its vinyl siding and classic brick accents, a welcoming front storm door, and an asphalt driveway that was freshly sealed in 2024. The yard is both attractive and functional, featuring decorative block edging and an in-ground sprinkler system that can be conveniently managed right from your smartphone, making it easy to keep everything lush and green all season long.

Step inside and you're greeted by a bright, open main level highlighted by vaulted ceilings that stretch across the foyer, living room, dining area, and kitchen. Updated lighting fixtures and a stylish Hunter ceiling fan enhance the space, while the cohesive design creates a warm and inviting atmosphere. Underfoot, durable CoreTec flooring, installed in 2016, flows through the kitchen, entry, and main level bathroom, complemented by newer carpet added in 2024 and freshly painted walls that give the home a crisp, modern feel.

The kitchen is both functional and beautifully updated, featuring smudge-proof stainless steel appliances, including an induction cooktop, along with refreshed cabinet doors, updated hardware, recessed lighting, and clean, modern finishes. Just off the dining area, a large concrete patio offers the perfect space to relax or entertain, seamlessly extending your living area outdoors.

Convenience continues with main level laundry, complete with a Samsung washer and dryer installed in 2020, and a smart Nest thermostat that allows you to control your home's comfort from just about anywhere. Three bedrooms are located on the main level, including a private primary suite with its own full bathroom and a spacious walk-in closet. An additional full bathroom on this level features a tiled shower/tub surround, a built-in linen closet, and a luxurious air bubble tub installed in 2016.

The lower level expands your living space with a huge family room illuminated by LED recessed lighting, perfect for gatherings, movie nights, or simply unwinding. Two additional bedrooms and another full bathroom provide flexibility for guests or a home office setup. You'll also find generous storage options, including a dedicated storage room and additional space in the mechanical room.

Practical updates add peace of mind, including new shingles approximately 3.5 years ago, a new high efficiency forced air furnace, central air conditioner, and water heater installed in 2020, and a new HRV (LifeBreath Max series) air exchanger added in 2024. The home also features an owned Impression Plus water softener.

Car enthusiasts and hobbyists will appreciate the three-stall garage, complete with a service door, a LiftMaster opener for the double stall door with smartphone capability, and a convenient keyless push-button.

This home has been carefully considered, blending modern technology, quality updates, and inviting finishes to create a home that's ready to be enjoyed from day one. Experience the home firsthand by taking the interactive tour.
