Description:

RUN, don't walk—this is a rare opportunity to own an exceptional handcrafted log home built by Vorderbruggen Construction Inc., featuring authentic Swedish Cope logs and freshly stained in 2025. Set on a beautiful 1.36-acre property with 252 feet of frontage and level elevation to the lake, this home offers open-concept main floor living with tongue-and-groove and log accents throughout, a large, DREAMY covered porch, a spacious lakeside deck, a striking wall of lakeside windows, soaring cathedral ceilings, and a cozy wood-burning fireplace. The main level features a primary bedroom and convenient laundry area, while the walk-out lower level includes a family room and two bedrooms. The generous loft provides incredible views of Garfield Lake, adding a stunning vantage point to this already remarkable property. With four heating systems—including in-floor heat in the basement, a Steffes off-peak heater, forced air furnace, mini-split and wood-burning fireplace—comfort is ensured year-round. You will not run out of outdoor storage for all the toys with not one but two detached garages, including a newer 3-stall 24 x 36' garage built in 2022 and a second 3-stall 24' x 32' garage that is fully heated and insulated, and an additional large utility shed. Located just steps from the Paul Bunyan State Trail for hiking, biking, and snowmobiling adventures, and less than 2 miles from the charming town of Laporte, this property also offers the rare opportunity to purchase an adjacent 4.65-acre parcel with first right of refusal before it is offered on the open market. Enjoy the virtual tour!
