Welcome to this beautiful property located just southeast of Vining and northwest of the Folden Hills in Otter Tail County. This is one of those properties that is hard to fully appreciate until you walk it in person. The rolling hills, scattered ponds, wooded pockets, and incredible views give this property a truly unique feel that fits perfectly with this part of west-central Minnesota.

There are several outstanding spots that would make great build sites for a forever home, cabin, or hobby farm overlooking the valleys, ponds, and surrounding countryside. Whether you are looking for a place to raise horses, start a hobby farm, build a country home, create better wildlife habitat, or simply enjoy your own piece of Minnesota land, this property gives you the opportunity to do all of it in one location.

The hunting and recreational opportunities here are excellent as well. While walking the property, several grouse were flushed, and the area is well known for strong deer and turkey hunting. The mix of rolling terrain, cover, water, and nearby ag ground creates excellent habitat for wildlife. There is also nearby state and county land that adds additional hunting and recreational opportunities close by.

What really stands out about this property is the setting. The views are outstanding, the terrain has character, and the possibilities are endless. This is much more than a hunting property.
