Description:

It is hard to find a rural slab on grade home in the heart of lakes country...and even harder to find one with a huge 3 stall garage! This recently built, custom home makes enjoying the area a breeze. Enjoy the convenience of having everything on one level! The open concept area is thoughtfully designed to allow indoor and outdoor spaces (patio and pool) to blend seamlessly.

The primary suite allows the owner to have some great private space, while 2 additional bedrooms and a full bath are on the opposite end of the home.

The 3 stall attached garage has ample space giving plenty of room to work or hang out even when vehicles are parked inside. Another huge bonus is an additional 1/2 bath accessed right from the garage.

Save yourself the hassle of building and establishing a lawn. This property already has all the extras such as the above ground pool, 14' x 28' shed (fits a classic car), crushed asphalt drive, gazebo, and generator included. A turn-key property for sure!
