Gorgeous home with over 3700 sq ft on 2.5 acres with woods on three sides provides a level of privacy and spacious entertaining areas on both levels rarely found. Custom cabinetry, hardwood floors, 10ft ceilings, generous storage and park-like grounds are just a few of the features you will find. The upper-level great room and kitchen currently seat sixteen, with plenty of additional space for guests to gather around the fireplace. Above the garage, a bonus room serves as a movie area, but could be used as a fourth bedroom. The main level open floor plan provides plenty of space for creating cozy meals, comfortable entertaining, or relaxing in front of the fireplace. The main level primary bedroom suite with a spa-like bathroom features a double vanity, separate tub and shower, tray ceilings, and restful views. A welcoming front porch, a custom designed deck on the main level and a walk out on the lower level to a jacuzzi and fire ring provide multiple opportunities to relax and enjoy the stunning wooded acreage. The lower level currently features a fireplace along with a separate sitting area and TV room. It also includes a custom-fitted office with under-desk filing cabinets, overhead cupboards, shelving, and ample workspace—ideal for working from home or enjoying a quiet, distraction-free place to focus.
