Description:

It's not often you find a home that feels this new. Rebuilt with a brand-new foundation, an entirely new lower level, and a beautifully remodeled upper level, this 3-bedroom, 2-bath home has been transformed from top to bottom. The sellers approached this project with quality in mind, making extensive construction improvements throughout the renovation—not just cosmetic updates. A complete list of the work completed is available in the supplements.. Seller did not forget to add some interesting touches, like a hidden room! Do not forget to look for it! Step outside and you'll appreciate everything this 3.1-acre property has to offer. The impressive 63' x 30' shop provides room for just about any project, with the rear section heated for year-round use—ideal for a workshop, home business, hobby space, or storing recreational equipment. A detached heated two-stall garage adds even more space for vehicles, storage, and everyday use. With hundreds of acres of Minnesota Department of Forestry and tax-forfeit land across the road, this location offers the kind of neighboring property that's becoming increasingly hard to find.
