Waterfront: Little Boy Lake

Status: Pending

Description:

It's getting harder and harder to find a property that offers true privacy on the water, especially one that doesn't require a long list of projects before you can enjoy it. That's what makes this Little Boy Lake island estate so unique. With a brand new bridge completed in July 2026, you'll enjoy easy, year-round access to your own private island while feeling like you're a world away. Inside, you'll find over 4 bedrooms and plenty of space for family and friends to spread out. The game room with pool table and ping pong, theater room with projector and surround sound, cozy fireplace, sandy beach, and lakeside firepit make this a place people will never want to leave. Whether it's boating and swimming all summer or snowmobiling and snowshoeing all winter, this is the kind of property where memories are made. The home is being sold fully furnished and comes with a proven track record as a revenue producing short-term rental, giving you the flexibility to enjoy it yourself while generating income when you're away. Opportunities to own a luxury home with this much privacy, on your own island in Northern Minnesota, don't come along very often.
