Description:

141± Acres | Private Lake | Cabin | Hunting Paradise Tucked away in the heart of Otter Tail County's Folden Hills and Snowy Lakes Area, this exceptional 141± acre property offers the privacy, recreation, and hunting opportunities that serious outdoorsmen look for. At the center of the property sits an updated 3 bed, 2 bath - 2,800 sq. ft. cabin, perfectly positioned along the shore of a private 22-acre lake. The property is equipped for hunting and outdoor recreation, featuring a new 42' x 64' shed (14' sidewalls) and an additional 30' x 90' shed (10' sidewalls), providing abundant storage for equipment, boats, ATVs, and more. For the serious whitetail hunter, the property includes four 6' x 6' enclosed and heated Muddy Bull stands, two additional enclosed stands, and several ladder stands. Miles of well-maintained trails provide convenient access throughout the property and to the various hunting locations. There is also bear, turkeys, ducks, geese, grouse and other types of other wildlife seen on the property. One of the property's biggest advantages is its location directly adjacent to Inspiration Point Christian Camp, which encompasses more than 1,000 acres with low/no hunting pressure, creating an extensive area of protected habitat next door. This property is surrounded by the type of terrain and habitat known for producing quality whitetails. The land features an abundance of mature oak trees, along with aspen and other natural timber, providing excellent food and cover for wildlife. An established food plot is already in place, with additional areas offering opportunities to expand the food-plot system. The rolling terrain and significant elevation changes are another defining feature of this property. While acreage is measured on a two-dimensional plane, the property's varied topography creates substantially more usable terrain, giving it the feel and hunting opportunities of a much larger tract. Mature deer have been harvested on this property and surrounding properties over the years, supported by a management approach that allows deer to reach older age classes. The combination of mature timber, water, food, cover, elevation, trail access, and quality neighbors creates a compelling environment for wildlife. Whether you're looking for a private hunting retreat, family recreational property, or a place where a group of hunters can comfortably enjoy the outdoors, this 141± acre property offers an uncommon combination of location, improvements, privacy, water, and hunting opportunity.
